2. Handwritten Analysis

The histogram displays the frequency of OCR confidence scores for 100,000 documents. The x-axis, labeled 'OCR Confidence Score', ranges from 0 to 95. The y-axis, labeled 'Number of Documents', ranges from 0 to 26,000. A vertical dashed red line is positioned at a score of 80. The data shows a very low frequency of scores below 65, a slight increase between 65 and 75, and a sharp peak between 85 and 90, reaching approximately 24,500 documents. There is also a small cluster of documents with scores between 80 and 85.
